 - b. if the contract were entered into with the individual, the contract would be a contract of employment.
- (ix) The Company will maintain records about any Contractors that it has engaged in the preceding month which will include:
 - a. the name of the Contractor;
 - b. the owner(s) of the Contractor;

Further, the Company must pay the earnings on the relevant Trust Deed and the Fund or scheme that accrued during the period of non-payment. The requirement for the Company to make retrospective payments will not limit any common law action which may be available in relation to death, disablement or any other cover existing within the terms of a relevant fund. APPENDIX F

Counselling and Disciplinary Procedures/Termination of Employment

1. Counselling and Disciplinary Procedures

This procedure applies in respect of Employees at the conclusion of their probationary period. Upon commencement of employment an Employee will be advised of the following procedure. The procedure will apply in all cases where formal counselling and disciplinary action is necessary.

2. Performance / General Misconduct

In the event that an Employee fails to maintain satisfactory performance levels in the case of general misconduct (e.g., lateness for work), the following counselling procedure will be applied. An Employee may elect at any step to have a Union delegate or Union Organiser present. All counselling will occur at a location where building work does not occur. Each Employee has the right to determine whether they wish to be represented by a Union Delegate, another representative of their choosing or not at all.

Step 1 – Verbal Warning / Counselling

The Company shall have a discussion with the Employee in which it will advise him / her of the problems that it believes exist. The Employee will then have the opportunity to respond to the allegations. If appropriate the Company will then:

- Remind the Employee of the procedures;
- Issue a verbal first warning;
- Advise the Employee of the standards of improvement required

Step 2 – First Written Warning / Improved Performance

If the Employee fails to meet the standards of improvement in accordance with Step 1 within a reasonable period of time, the Company shall have a further discussion with the Employee in which it will advise him / her of the problems that it believes exist. The Employee will then have the opportunity to respond to the allegations. If appropriate the Company will then issue a written warning detailing:

- The issues of concern;
- The standards of improvement required

At the request of the Employee, copies of any written warnings will be given to the Company Union delegate/representative or Union Organiser.

Step 3 – Final Written Warning / Improved Performance

If the Employee fails to meet the standards of improvement in accordance with Step 2 within a reasonable period of time, the Company shall have a further discussion with the Employee in which it will advise him / her of the problems that it believes exist. The Employee will then have the opportunity to respond to the allegations. If appropriate the Company will then issue a final written warning detailing:

- The issues of concern;
- The standards of improvement required;
- That it is a final written warning and that failure to meet the standards of improvement stated therein will lead to dismissal

The relevant Employee being counselled will be requested to sign a copy of the written warnings referred to in Step 2 and Step 3 of this clause.

Revocation of Warning

If an Employee does not repeat the same offence which produced the need for the final warning, within 3 months of the warning, then all warnings become null and void and cannot be considered grounds for termination.

Step 4 – Dismissal

If after receiving a final warning, the Employee repeats the same conduct within a period of 3 months, then the Employee may be terminated.

If the Employee fails to meet agreed standards of improvement in accordance with Step 3 within a reasonable period of time, the Company shall have a further discussion with the Employee in which it will advise him / her of the problems that it believes exist. The Employee will have the opportunity to respond to the allegations. This will occur where building work is not performed. If appropriate the Company may then issue a written notice of dismissal in accordance with this Agreement detailing the reasons for the dismissal

3. Serious and Wilful Misconduct

In the case of serious and wilful misconduct (e.g. theft, assault), the following procedure will be followed:

- The Company shall have a discussion with the Employee in which it will advise him / her of the alleged serious and wilful misconduct.
- The Employee shall be entitled to have a Union delegate/representative or Union Organiser in attendance and will have the opportunity to respond to the allegation.
- If appropriate the Company may then issue a written notice of dismissal detailing the reasons for the dismissal.

4. Commitment to Follow Procedure

The Company agrees that this procedure will be adhered to prior to termination of employment.

APPENDIX G

Heat Policy

The Parties recognise the risk to worker health caused by exposure to high temperatures in the work environment. To reduce the potential for heat related illness, the parties agree to the following heat policy.

- a) Workers should be alerted to possible extreme or excess heat conditions by the PCBU, Site Manager and/or the WHS Committee before commencing work or as soon as practicable after work commences.
- b) Once the temperature reaches 35°C, there will be an orderly cessation of work and preparations for safe completions of critical tasks currently under way.
- c) During periods of hot weather, if there are areas of the workplace that are below 35°C, work shall continue as normal. Workers will walk a reasonable distance through the open to and from amenities, provided it does not pose a serious threat to their health or safety. By agreement with the PCBU's and workers during periods of inclement weather (heat) the Saturday break roster can be applied to weekday work.

Monitoring of Temperature

Temperatures shall be monitored as follows:

- a) Temperatures shall be monitored during the course of the day by the PCBU's, Site Manager, WHS Committee Chairperson and/or the Deputy Chairperson.
- b) Readings shall be taken from the nearest Bureau of Meteorology (BOM) weather station.

Humidity

Humidity creates a significant risk to workers' health and safety.

- a) Consultation with workers must take place when humidity exceeds 75% to assess all risks associated with the work being performed. Things taken into account should include: air flow/ventilation, PPE requirements, supervision, and the health of individual workers.
- b) NB. Where work is required to be performed in additional PPE, action levels will need to be altered in consultation with workers, HSR's and the WHS Committee.

Concrete pours

- a) In circumstances where it is predicted that the temperature will be 35°C, concrete pours shall not be scheduled, and Employees shall not be required to start a concrete pour. However, after prior consultation and agreement between the Company and the Union, agreed concrete pours may commence no later than 7.00am.
- b) Upcoming concrete pours shall be an agenda item for the site WHS Committee, so they can view the weather forecast for the proposed day(s) and make recommendations regarding their suitability. Work should be programmed in such a way as to reduce the risk of heat stress. Sufficient numbers of workers should be engaged to allow rotation of workers in periods of heat.

Guide to Heat Stress symptoms

Heat illness covers a range of medical conditions that can arise when the body is unable to properly cope with working in heat.

- a) These conditions include:
 - Heat stroke (a life-threatening condition that requires immediate first aid and medical attention)
 - Fainting
 - Heat exhaustion / fatigue
 - Heat cramps
 - Rashes (also called prickly heat)
 - Magnifying of pre-existing illnesses and conditions.
- b) Signs and symptoms of heat illness include feeling sick, nauseous, dizzy or weak. Clumsiness, collapse and convulsions may also be experienced as a result of heat illness.
- c) Workers with these signs or symptoms need to seek immediate medical attention.

Control Measures

Measures employed on site to prevent the effects of Heat Stress:

- Workers shall have easy access to cool, clean drinking water.
- Caffeinated drinks should be avoided as they promote dehydration.
- Mist busters will be deployed for dust suppression and aid in worker comfort in earthworks zones.
- Reduce physical activity/tasks where possible.
- Rotation of workers.
- Work in cooler parts of the day.
- Utilise Shaded areas.
- Reduction of PPE, where permissible.
- Wear light clothing under coveralls.
- Individuals should seek medical advice on the effect of medication being taken and communicate with the PCBU/First Aid Officer if they believe necessary.
- In addition, rest breaks as needed by an individual. Individuals should not be discouraged from taking needed rest breaks.
- It is expected mandated breaks of “smoko” and lunch be adhered to.
- Training – (addressed below).

Incident Response/ First Aid

All heat stress incidents are to be reported to first aid and the PCBU's. Employees experiencing symptoms of heat stress must report to the first aid shed and receive medical attention. If unable to walk to the shed, normal first aid procedures will apply.

Incident Reporting

All heat related incidences are to be reported in accordance with this policy as follows:

- a) After any reported heat related incident, the first aider shall advise the site Safety Coordinator who will notify the Chair of the WHS Committee and the relevant working group HSR immediately.
- b) The WHS Committee shall also be notified of the incident at its next meeting, or more immediately if there is a risk to other workers on site.
- c) In addition, LTIs, discomfort or related complaints and absenteeism related to heat stress shall be monitored by the WHS Committee.

Training

All PCBUs and workers on site will be trained in mitigating and recognising heat stress illness symptoms, in themselves and others. With refresher training to take place annually. This training will be provided by Creative Safety Initiatives (CSI) or another provider nominated by the Union.

In addition, First Aiders need to be specifically trained in responding to heat related incidences. Training shall be provided by a suitably qualified organisation.

Sun Safe Tips

In addition to the effects of heat, skin cancers are a major concern for workers in the industry. Here are some tips to help protect against them:

- Wear light coloured, long-sleeved collared shirts with a minimum UPF of 50+.
- Wear a broad brim hard hat attachment including neck flap.
- Wear long trousers or shorts that go to the knee.
- Avoid heatstroke by ensuring clothing is lightweight, comfortable, well-ventilated and does not restrict movement.
- Wear sunglasses that meet Australian Standards and are safe for driving.
- Apply a broad spectrum sunscreen with a minimum SPF of 30+ and lip balm.
- Use natural or portable shade where possible.
- New workers at any site should be informed, trained and supervised in sun safe techniques.
- All building workers should have their skin checked regularly by a doctor, regardless of age.
- Monitor your own skin and look out for new or unusual spots, a sore that won't heal, or a spot or mole that has changed size, shape or colour.

The aforesaid 'usual weekly hours' of the affected Employees may by agreement be exceeded from time to time to perform works which the Company considers necessary and to meet operational requirements, including but not limited to the need to perform works which are critical to the ongoing productivity or safety of other employees on the project or where a critical work task is delayed due to unforeseen circumstances.
- c) Reflecting this intention, it is recognised that the Company is not restricted as to the setting of daily hours within the 50-hour general standard.

 - (i) any risk to Employee health and safety including the risk of fatigue i.e. excessive hours, exposure to noise, fumes, or any matter that can impair an Employee's ability to work safely and/or create a danger to Employees; or
 - (ii) the Employee's personal circumstances including any family responsibilities; or

High risk works, or works having effect as outlined above would include, but not be limited to the following:
- (i) erection or dismantle of tower cranes;
 - (ii) climbing of tower cranes;
 - (iii) removal of jumpforms, or similar high-risk bespoke elements of work;

- c) Work may be carried out on a weekend if the Company consults and agrees with the Union about the need to carry out work. As far as practical, given operational requirements, the Company will give affected Employees at least 7 days' written notice of any such need for work to occur, so as to ensure appropriate consultation. Such work shall be paid at the rate of double time ordinary rate of pay for all hours worked.
- d) If 7 days written notice is not provided by the Company, then the affected Employees, shall be paid double time and a half of the ordinary rate of pay. This will not apply for events outside the control of the Company, where emergency work is required to be undertaken.
- e) Where work is required to be conducted over two (2) consecutive weekends and an RDO is not taken over this period, Employees who work on consecutive weekends will take the RDO foregone at an alternative day falling within six (6) weeks of the originally scheduled day, provided the re-scheduled RDO is to be taken on a day (or days) adjacent to a Saturday or Sunday or RDO, in conjunction with annual leave, or as otherwise agreed by the Employee and the Company.
